RIDGID Instructions for Inserting Chasers in Drop Head Threaders

To properly insert new chasers in RIDGID Drop Head Threaders, read the following instructions carefully.

1. Place the Die Head in the position shown at left above.
2. Remove Screws (4), Cover (2), and old Chasers.
3. Insert new Chasers, throats down as shown, into Die Head slots. Numbers on Chasers must agree with those next to Die Head slots.

4. Replace Cover (2), and Screws (4). Tighten the Screws lightly.
5. Slide Die Head on already threaded nipple or pipe, until Chasers begin to thread. This forces Chasers outward against Lugs on Cover Plate. Tighten the 4 Screws securely. The Chasers are set for accurate threading by bringing **B** of Chasers against **A** of the Cover. This is the **Key** to inserting the Chasers properly.

RIDGID Pipe and Conduit Drop-Head Threaders

Exposed Ratchet Type

No. 00-R

Capacity: 1/8" through 1"

No. 111-R

Capacity: 1/8" through 1 1/4"
